Fight Will Be Bitter
Those who will persist closing their ears against the continual recommendation of Dr. King's New Discovery for consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. And what T. R. Beall, of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. King's New Discovery after everything else had failed. Improvement came at once and four bottles cured her. Guaranteed by Moore & Ballew, Druggist. Price 50c, and \$1.00. Trial bottles free.

CONGRESSMAN GREGG AT WORK

He Is Doing All He Can Toward Helping the Cotton Planter.

WASHINGTON, D. C., JAN. 27th, '04.
Palestine Weekly Herald,
Palestine, Texas.

Gentlemen:—
I have been working assiduously to get everything in shape for the farmers of my district to get the full benefit of all experiments and suggestions made and to be made by the Agricultural Department in its fight against the boll weevil, and with this end in view I have caused Mr. Galloway, chief of the bureau of plant industry, to address to me the enclosed letter, that I might have the same published for the information of the people in all the papers of my district. Please publish it in the next issue of your paper.
Yours very truly,
A. W. GREGG.

WASHINGTON, D. C., JAN. 27, '04.
Hon. A. W. Gregg,
House of Representatives.

My Dear Mr. Gregg:—
Referring to your inquiry as to our plans for the work on cotton in accordance with the recent appropriation, I may say that one feature of the work will be the organization at once of the farmers in Texas and Louisiana, for the purpose of demonstrating the efficacy of the results already accomplished in the matter of growing cotton, despite the presence of the boll weevil. The department has shown in former experiments that by planting the early maturing varieties and proper cultural methods, from one-half bale to a bale of cotton per acre can be grown, even if the boll weevil is on hand. To bring to the attention of as many farmers as possible this work, it is proposed to organize the farmers in each county and to arrange to have them grow, under the direction of the department, ten or more acres of cotton, in accordance with a working plan which will be furnished. The department does not propose to furnish the seed nor fertilizers. It will simply give a definite working scheme, the object being to have these demonstration experiments serve as object lessons throughout as wide an extent of territory as is practicable.

The work in Texas and Louisiana is to be under the direct charge of Dr. S. A. Knapp, whose headquarters will be at Houston, Texas. Dr. Knapp is desirous of getting in touch with reliable farmers throughout the entire state and any of your constituents who would like to enter upon this cooperative work will be able to get full information by addressing Dr. Knapp. Dr. Knapp will follow up this information by sending one of the regular assigned special agents to visit the county and do everything within his power to bring about practical results.

Enclosed is a copy of the first announcement, which we are now preparing to send out, and which is self-explanatory.
Trusting this information is satisfactory and assuring you of our desire to co-operate with you in every way, I remain,
Very truly yours,
B. T. GALLOWAY,
Chief of Bureau.

FARMERS' CO-OPERATIVE DEMONSTRATION WORK.

It has been demonstrated by the Division of Entomology in the United States Department of Agriculture that profitable crops of cotton, ranging from one-half bale to one bale per acre, can be raised despite the presence of the boll weevil. The most important work to be accomplished now is to secure the general adoption of the successful methods followed by the department. To this end it is proposed to effect immediate organization of the farmers in Texas and Louisiana for the purpose of a general test of the methods so far found successful. Granting that the cultural methods are successful under scientific supervision, the all-important problem is, will the average planter, tenant farmer and laborer adopt them? Can he be equally successful without that supervision? The test of this should be as thorough and as universal in the infested districts and adjacent territory as is practicable. To make this test it is proposed to secure the names of as many farmers in Texas and western Louisiana as is practicable, who will be willing to cooperate in the test of these cultural methods, place in the hands of these farmers all necessary information, and direct them in their work for the year.

GENERAL PLAN OF THE WORK.

1. A central office will be established at Houston, Texas, and Dr. S. A. Knapp will be placed in charge.
2. Two competent organizers will be placed in each Congressional district to organize the counties by districts, the farmers in each district starting a club with a district president. At the time of organizing in any district each farmer joining the club will be asked to sign the following agreement:—
"I hereby agree to raise—acres

of cotton in the season of 1904 under the direction of the United States Department of Agriculture and to be governed entirely by such instructions in the raising of the crop as said Department may furnish me. I further agree to fill out and return promptly such report blanks as may be sent me from time to time."

Name.....
Post Office.....
County.....
State.....

When the agreement is signed, full working instructions will be given and the list of names will be forwarded to Dr. S. A. Knapp, Houston, Texas, to whom all reports will be sent.

The district president is authorized to secure additional farmers, care being taken that they shall be men who will carry out the instructions of the Department.

Farmers may organize or notify Dr. Knapp that they are willing to organize and a Special Agent will be sent to assist them.

DR. B. T. GALLOWAY,
Chief Bureau of Plant Industry.

PAVEMENT NOTES.

Wood Bros. Has It For Less

Why will you continue to suffer when Osteopathy offers you relief, even when all else may have failed?

Phone 53

Take no more medicine but try Osteopathy for your aches and pains, and continue your routine work while under treatment.

Constipation is the cause for many of your ailments. Why not be cured of that by Osteopathy. One to three months will cure any case.

The Herald reaches more people and is read by more people than all the other city papers combined.

Elaine Coffee, absolutely fresh and pure. Try a one-pound package and be convinced of the excellent quality of Elaine Coffee. Sold only by Wm. BRANAGAN.

Phone 53

Call 734, Cooke & McIntyre, if you want first-class groceries. 130-1f

Osteopathy is very successful in treating measles, pneumonia and other kindred affections.

Call on Dr. Speegle, the Osteopath, over Jordan's Hardware store, for either acute or chronic conditions.

ELAINE COFFEE

HOME ROASTED
HOME PACKED.

First quality in every particular. Sold only by

Wm. BRANAGAN.

1904—Telephone 444—The Hamilton Boys, you know. Fits like a kid glove.

Phone 53

Elaine Coffee, the only coffee roasted and packed under the immediate direction of the home merchant. Sold only by Wm. BRANAGAN.

Why will you longer refuse to investigate Osteopathy? Is it because it is new? Is it that the main reason you should try it.

Phone 53 We appease the appetite W. G. Hooker & Co.

Call 734, Cooke & McIntyre, if you want first-class groceries. 130-1f

After experimenting with medicine for from 1 to 20 years, why hesitate to give Osteopathy a trial. It may be able to cure you in from 1 to 3 months.

The ladies of the Christian church will serve oysters and lunch in the Geo. Wright building, next to D. C. Bowden's Friday, Feb. 5th.

When it's health you are searching for, go to Andrew A. Speegle, the Osteopath, over Jordan's Hardware store, and you will surely be pleased with results.

Phone 53 We carry all kinds of feed stuff. Hooker & Co.

Osteopathy can produce examples in Palestine and out as well who have been cured when every other known therapy had failed them. Perhaps so with you.
